MEMORANDUM FOR DEPUTY DIRECTOR, CENTRAL INTELLIGENCE AGENCY

ATTN: MR. FRANK C. CARLUCCI

SUBJECT: Instructors for the Information Science Center (ISC)

1. The instruction received by Army personnel is of value and appreciated by the beneficiaries. A reflection of this appreciation is the increased Army usage of your training program during the last two fiscal years. One hundred Army personnel received an approximate 256 man-weeks of instruction during FY 79.
2. The Army Intelligence Community is suffering severe manpower shortages, in addition to, limited Congressional manning authorizations. This is compounded by a scarcity of intelligence officers possessing the technical requisite skills to satisfy all of the military worldwide commitments.
3. It is with reluctance that I must state that we cannot nominate anyone to participate in your training program.

E. R. THOMPSON  
Major General, USA  
ACofS for Intelligence
